Giving Love Elderly Charitable Limited
Accounting Policies and Explanatory Notes to the Financial Statements
For the year ended 31 March 2019

1. Reporting entity

Giving Love Elderly Charitable Limited is an association in Hong Kong with limited liability by guarantee. The address of its registered office is located at M/F., No. 240 Tai Po Road, Sham Shui Po, Kowloon, Hong Kong. The principal activity of the Association is provision of elderly charitable services.

2. Basis of preparation and accounting policies

The Association qualifies for the reporting exemption as a small guarantee company under section 359(1)(a) of the Hong Kong Companies Ordinance (Cap. 622) and is therefore entitled to prepare and present its financial statements in accordance with the Small and Medium-sized Entity Financial Reporting Standard (SME-FRS) issued by the Hong Kong Institute of Certified Public Accountants.

These financial statements comply with the SME-FRS and have been prepared under the accrual basis of accounting and on the basis that the Association is a going concern.

The measurement base adopted is the historical cost convention.

The following are the specific accounting policies that are necessary for a proper understanding of the financial statements:

a. Revenue

Revenue is recognized when it is probable that the economic benefits will flow to the Association and when the revenue can be measured reliably, on the following bases:

- (i) Revenue from donation and public subscription is recognized when the subsidy is received; and
- (ii) Function income is recognized when the associated functions are rendered.

b. Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

The depreciable amount of an item of plant and equipment is allocated on a systematic basis over its estimated useful life using the straight-line method. The principle annual rates used for depreciation are as follow:

Leasehold improvement	25%
Plant and machinery	30%
Furniture and equipment	20%

Gain or loss arising from the retirement or disposal of an item of plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized as income and expense in the income statement at the date of retirement or disposal.

For the year ended 31 March 2019

2. Basis of preparation and accounting policies (continued)

c. Impairment of assets

An assessment is made at each of the end of the reporting period to determine whether there is any indication of impairment or reversal of previous impairment, including items of plant and equipment. In the events that an asset's carrying amount exceeds its recoverable amount, the carrying amount is reduced to recoverable amount and an impairment loss is recognized in the income statement. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount, however not to an amount higher than the carrying amount that would have been determined (net of amortization or depreciation) had no impairment losses been recognized for the asset in prior year.

d. Taxation

Income tax expense represents current tax expense. The income tax payable represents the amounts expected to be paid to the taxation authority, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is not provided.

e. Related parties

Two parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

3. Revenue
